

SORTATION TABLES

Eight-position sortation table

Skid pusher

FEATURES

- 4-, 6-, 8- or 12-position turntables.
- Smooth rotation by VFD and motor driven pinion and gear (no chains) for better positioning accuracy.
- Table supported by floor mounted rollers and precision center bearing.
- Piping/conduit can be run on the floor beneath the table.
- Table position indexing, from one position to any other, is automatic by the shortest route.
- Automatic skid placer option is available.
- Auto indexing is provided to any position.
